part II - Building and housing needs and map this page I
am map of Industrial Center of Southeast Kansas

J. Lance Wene, Mayor —:- Nelle B. Arnold, City Clerk

BAXTER SPRINGS, KANSAS

I am present out along st prop road map or lot -
it is a right of way from street below BEVERLY BRUNSON
Beverly Brunson
Box 296

BAXTER Springs

KANSAS 66713 post office

Dear Sir - I am pleased you will come to speak and I
Harold Rosenberg live at 111 University Street Seattle, Wash.
Hyattstown, Md. To best of knowledge, each other
longer than a year or two years - except we (but not yet)

Thanks for sending your book Whitemash "on
credit" I have read everything I could find
including Buchanan & Le Saumage in French - a
tremendous undertaking! — Although I have not
book once at top speed I feel it is the best
researched yet. I am particularly disgusted with
myself for missing the Report's own identification of
the (or "a") false Oswald. The Report is so slippery
— even when you know they have rigged the evidence,
they can still fool you.

I know the treachery you must have developed - the
tight feeling in the neck & temples from the strain
of reasoning against this very clever manipulation of

words.

I agree with you that this crime must be solved; I have to admit that nothing has happened - ever - to give me such dark doubts and disillusionment about the government of my country. You have somewhat restored my faith - but is your book going to get a fair hearing? I doubt it - look what book magazine is trying to do to the Epstein book before it is even published.

May I say, also, that I admire your courage - for which I am sure you are paying dearly - literally - in bringing out the book yourself. I wish I did know someone else who would want to read it. - Here, I find that no one - or few - have even had a look at the Report. Still, they mostly feel that something is "radically wrong" - an expression I heard from a police officer. How can't teach people at the grassroots (wherever that is) except through the mass media?

One other possible way is word of mouth. In 1964, after a long day of talking up Johnson down Goldwater succeeded in switching one or two Republican votes - when the returns started coming in from Kansas I knew I hadn't been alone - thousands of people all the state must have done the same as I did. - Well, you know where that got us! What do I do next time?

Anyway, I will put in a plug for Whitewash when & if I ever find an intelligent listener.

Sincerely,
